

CONTAINER LOADING INSPECTION – LUANDA

Overview:

Southern Coffee Comércio provides professional supervision of container loading in Luanda, ensuring full compliance with international quality and safety standards. Our team guarantees that every step of the loading process is carried out transparently, accurately, and documented for verification and accountability.

Included Services:

- Two qualified Quality Control Specialists on site to oversee the entire process.
- Comprehensive Monitoring of Loading Process, including:
 - Verification of total number of bags loaded.
 - Inspection of jute bag quality and condition.
 - Confirmation of correct markings and labeling on each jute bag.
 - Supervision of bag arrangement and loading scheme within the container to prevent damage and ensure proper stowage.
 - Sealing of the container in compliance with Customs inspection requirements.
- Photo and Video Documentation of the entire loading process for full traceability.
- Final Report summarizing all observations, including a detailed loading scheme, quantity verification, and condition of bags.

Notes:

- The service is calculated as one full-day inspection.
- If loading is postponed or delayed, the next-day attendance is charged as an additional inspection day.
